#### 1 INTRODUCTION AND APPOINTMENT

Peri Micaela Finnigan and Iain McLennan, Accredited Insolvency Practitioners, of Auckland, were appointed joint and several liquidators of Saversupermarket Manukau Limited ("the company") on 30 April 2018.

Pursuant to Section 255(2)(d) of the Companies Act 1993 ("the Act"), the liquidators are reporting on the progress of the liquidation. This second report should be read in conjunction with the liquidators' previous report.

This report is being sent to all shareholders and all creditors who have filed a claim in the liquidation.

A Statement of Realisations and Distributions is **attached**.

#### 2 RESTRICTIONS

Whilst all care and attention has been taken in compiling this report, we do not accept any liability whatsoever to any party arising from the circulation, publication, reproduction, or use of this report.

We reserve the right (but are under no obligation) to review and, if we consider necessary, revise this report in respect of any information existing at the date of this report but that becomes known to us after that date.

#### 3 CONDUCT OF THE LIQUIDATION DURING THE PRECEDING SIX MONTHS

##### 3.1 *Post-Liquidation Trading On Period*

When the liquidators were appointed, the company had failed to renew its lease of the premises, the existing lease for the company's premises had expired, and the landlord had locked the company out of the premises.

Following the liquidators' appointment, they negotiated with the landlord to allow the company access to the premises and to trade on the supermarket business for a short period of time with a view to maximising the realisable value of the company's remaining stock and assets.

The liquidators discussed the possibility of selling the company's business as a going concern with the landlord. As the landlord had alternative plans for the premises, it was not prepared to grant a further lease for the premises to be operated as a supermarket. The company's business could not, therefore, be sold as a going concern.

While the book value of the company's stock recorded in the company's records was significant, much of the stock on hand as at the date of liquidation was unsaleable because it was either significantly out of date, was perishable and had spoiled, or had not been properly stored so could not be sold for food safety reasons.

The trading on period ceased when it became uneconomic to continue trading the business. An auction was held on site at the end of the trading on period. Most of the saleable stock was sold during the trading on period and the remaining stock was sold at auction. The company's saleable fixed assets were sold either during the trading on period or at auction. Due to their age, condition, size, and/or decommissioning/commissioning cost, there was no interest in a significant number of the company's fixed assets. The fixed assets and chattels that were not sold at or shortly after the on-site auction passed to the landlord in accordance with the terms of the lease.

### **3.2 Asset Realisations**

#### **3.2.1 Stock**

Trading on stock sales realised \$8,029.

#### **3.2.2 Fixed Assets and Chattels**

The fixed assets and chattels realised \$7,043. The commission on sales totalled \$2,200.

#### **3.2.3 Pre-Payments and Refunds**

The company had a credit of \$248 with one of its suppliers. This credit has been paid to the liquidators.

## **4 INVESTIGATIONS**

The liquidators' investigations into the books, records, and affairs of the company are ongoing.

A number of matters have come to the attention of the liquidators in the course of their investigations that, if pursued, have the potential to result in recoveries for the benefit of the company's creditors. The liquidators are continuing to investigate these matters and will take recovery action, if appropriate. As the liquidators do not want to prejudice these potential recoveries, no further information is being provided at this time.

If you have any information that you believe may assist the liquidators' investigations, please email that information together with any relevant documents to [mbrugeyroux@mvp.co.nz](mailto:mbrugeyroux@mvp.co.nz).

## **5 CREDITORS' CLAIMS**

### **5.1 Secured Creditors**

Secured creditors with assets specifically pledged were returned to the secured creditor entitled to receive those assets.

The liquidators have received one secured claim relating to stock supplied prior to the company's liquidation. As the creditor could not trace into the stock or its proceeds, this creditor has an unsecured claim in the liquidation.

### **5.2 Preferential Creditors**

The liquidators were advised that there were no employees and no outstanding preferential employee claims as at the date of liquidation.

The Inland Revenue Department has submitted a preferential claim for \$501.

No dividend has been paid to preferential creditors at the date of this report.

### **5.3 Unsecured Creditors**

As at the date of preparing this report, 24 unsecured creditors' claims have been received. The total value of unsecured claims received is \$177,018.

In the interests of minimising liquidators' fees, the liquidators will not attend to the formality of accepting or rejecting creditors' claims until such time as we are in a position to pay a distribution.

## **7 FUNDS / LIKELY OUTCOME**

It is too early to determine whether there will be a distribution to unsecured creditors. Any distribution is dependent on the liquidators making further recoveries.

## **8 MATTERS DELAYING THE COMPLETION OF THE LIQUIDATION**

The following matters are outstanding:

- Completing investigations into the books, records, and affairs of the company
- Taking any actions arising from the liquidators' investigations, if appropriate

---

## 9 ESTIMATED DATE OF COMPLETION

It is too early to determine the likely date of completion of this liquidation.
